

## Locate individuals with smart reporting.

An **advanced skip tracing tool** that offers expanded sourcing, flexible request options and a simple report structure **for locating an individual's current address, previous address history, associated phone numbers and aliases.**

Offers control over the skip trace process by allowing searches to be conducted using any combination of SSN, name and/or address.

This search will return all matching records based on the submitted criteria in a list format that can be scanned and analyzed quickly and easily to **identify and locate all relevant and useful contact information.**

MicroBilt Address Search assists collections and recovery users with locating addresses and phones on hard-to-find skips.

## Potential returned data

- SSN
- Date of birth
- Name and aliases
- Current and previous addresses
- Associated phone numbers
- First and last seen dates

## Put Address Search to work for you.
