# iPreview

Quick Look at Alternative Data Attributes.

iPreview is MicroBilt's advanced verification solution, offering a refined 'first look' at application data for lenders and financial services companies looking to verify leads effectively. This solution is a pivotal component for those seeking a streamlined, low-cost alternative within MicroBilt's product suite to further assist in reducing overall underwriting and customer acquisition costs.

iPreview utilizes sophisticated technology to provide quick insights into application attributes, assessing over 60+ data points, enabling a precise initial lead scrub.

iPreview provides insightful attributes including:

- Identity Validation (SSN/DOB/DL/Email/Address/Phone/IP)

- Bank Account Validation

- Consumer Identifier (OFAC/Watchlist/Military)

- Employment Indicator

**Enhanced Lead Quality providing
Operational Efficiency while reducing Acquisition Costs.**

Let iPreview help your business succeed.
