PayNet®

The industry leading business credit report

An effective way to get both credit history and equipment financing information on a specific company.

Available: ✓ Web Based   ✓ Batch   ○ API

What does it do?

A rich source of data on equipment financing and business credit history.

Available as a Search and Report:

PayNet Company Search

Returns a list of matching businesses.

PayNet Payment History Report

Delivers the payment history on a selected company compiled from a comprehensive database of borrower operating information, lender payback details and delinquency history as well as lien and judgment summaries.

What is it used for?

Used by lenders during the loan origination process to better understand a commercial applicant's credit history and risk profile.
