

Consumer & Collection Insights

## A convenient and comprehensive search of traditional credit data for collections professionals

A convenient and comprehensive search of traditional credit data for collections professionals.

Available:  Web Based  Batch  API

### What does it do?

Your Bank & Debtor Locator reports return the following:

- Address
- Employment
- Banking inquiries
- Collection inquiries
- Auto finance inquiries
- Trade line inquiries
- Other financial inquiries

### What is it used for?

Used in support of late-stage, legal collections and recovery, the Bank & Debtor Locator reports help collections professionals identify potential consumer banking relationships in support of their recovery efforts. Additional information may also be available about the consumer's address and/or employment to further enhance skip trace needs.
